

City of Oak Creek Plan Commission Application

Meeting Dates: 2nd & 4th Tuesdays of each month.
All applications are due four (4) weeks prior to the Plan Commission meeting.

It is the responsibility of any person/firm that is considering submitting an application for the Plan Commission agenda to contact the Community Development Department (414-766-7027 or kpaperbon@oakcreekwi.org) prior to any submittal. It is also suggested that the applicant contact the Alderman of the district and the Mayor with respect to the proposed development.

PLEASE TYPE OR PRINT. ILLEGIBLE OR INCOMPLETE APPLICATIONS WILL BE RETURNED.

CITY OF OAK CREEK PLAN COMMISSION APPLICATION CHECKLIST

GENERAL SUBMITTAL REQUIREMENTS

- Applications are due four (4) weeks in advance of the Plan Commission meeting.
- Ten (10) **folded** reduced size (11" x 17") copies of all plans are required at a standard engineering scale of 40 feet per inch or less.
- Two (2) **folded** full size copies of all plans are required at a standard engineering scale of 40 feet per inch or less.
- Digital copies of all plans, photographs, and supporting documents. Plans **must** be submitted in **both** AutoCAD and Adobe PDF formats. Certain submittals such as sign reviews and certified survey maps can be only in PDF; however, all plats (preliminary or final), site, landscaping, and building plans **must** be in PDF and an AutoCAD compatible format.

NOTE: *The City recommends that a professional engineer, architect, or designer prepare the plans. Your application will not be put on the agenda until staff is satisfied that all materials have been provided and all concerns have been addressed. Any revisions to plans will require a re-submittal of all items listed above.*

A SITE PLAN INCLUDING:

- Name of the owner/developer as well as the person/firm that prepared the plans with addresses and phone numbers for both.
- The most current date of preparation or revision.
- Scale, North arrow, ¼ section vicinity location and parcel key number with applicable existing street names noted.
- Area of the site, as well as square footage devoted to building space, parking, other paving, landscaping and open space.
- All paved areas - proposed and existing - including, but not limited to, parking, loading, driveways, driveway openings, curbing, sidewalks, paths, and outdoor seating areas.
- Parking lot layout including
 - Number of spaces (including accessible spaces)
 - Number of employees per shift
 - Dimensions
 - Setbacks
- Detailed building locations with setbacks noted on the plan.
- A detailed and dimensioned elevation of any proposed or existing signage, including copy and color schematic, with the location of existing and proposed signage.
- Location, type, and height of all proposed and existing fences or walls.
- Location and materials for dumpster enclosures (materials should match those found on the building)
- Location of all outdoor storage areas and the proposed items to be stored
- Location of existing and proposed fire hydrants (public and private)
- Location of any wetlands, floodplain, ponds, rivers, streams or other water features
- Locations of existing and proposed sanitary sewer, storm sewer, and water mains and any existing and proposed easements.
- Locations of loading births
- Fire Protection plan if required.

A BUILDING PLAN

- Detailed elevations with scale and schematics of all proposed buildings and structures. Elevations must note all materials used and proposed color scheme
- A colored, architectural rendering of all proposed buildings and structures.
- Rooftop mechanicals must be depicted on the elevation drawings and drawings must depict how they will be screened.
- Any proposed light fixtures, signage, awnings or other exterior features must also be depicted on the plans.
- Interior floor plan with dimensions

A LIGHTING PLAN INCLUDING:

- Exterior lighting plans, including location, illumination levels (in foot-candles), and type with photometric analysis
- Types of fixtures and poles (including height) being proposed for the site. A brochure or spec. sheet from the manufacturer is preferred.

A UTILITY PLAN INCLUDING:

- Existing and proposed grades, and site drainage plans, including catch basin locations. All paved areas and buildings must be connected to the storm sewer system, if available.
- Locations of existing and proposed sanitary sewer, storm sewer, and water mains and any existing and proposed easements.

A SITE GRADING PLAN

- All grading plans shall be designed, prepared, stamped, and signed by a qualified, professional, and registered engineer in the State of Wisconsin.
- Existing and proposed contours
- Initial soils test
- Location of stormwater holding areas

A STORMWATER MANAGEMENT PLAN

- Completed storm water management permit application and applicable fee.
- Two (2) copies of the storm water management report (see checklist in permit application for required information).
- Two (2) copies of the site and drainage map (see checklist in permit application for required information).
- Two (2) copies of the erosion control plan and schedule.
- Signed maintenance agreement.

A LANDSCAPING PLAN INCLUDING:

- Landscaping plan must show all utility easements and fire hydrants.**
- Number, size, and type of all existing and proposed trees, shrubbery, planters, planting areas, landscape islands, and greenspace, on the site.
- Screening plan for any outdoor storage
- Commercial properties must provide a landscape buffer between adjacent properties, adjacent to public streets, and any paving on the site. Planting islands in parking lots must be landscaped.
